MEMORANDUM

TO:Finance CommitteeFROM:Sarah Reeves, Executive DirectorDATE:June 7, 2024RE:Board packet Financial Charts

On May 23, 2024 Commissioner McCraw sent the following points in an email to Paul Stabler, Paul Ruess, Nola Ricci and me regarding Board packet finance content:

- 1. You previously noted that the finance updates sprawl. I wonder if it would be beneficial to schedule this as a discussion topic for some future board meeting. The goal would be to determine the most useful metrics.
- 2. Regarding graphs, it would help if the use of color were standardized. Doing so would speed graph interpretation once people learned the scheme. To wit:
 - a. Multi-year graphs: In one current graph, the current year is red, whereas in another it's gray. Always depict the current year in the same color. I'd advocate for that color to be red.
 - b. Similarly, the colors used in budget-versus-actual graphs are different for different graphs.
 - c. Terminology varies. One graph has a data series for "current year" while another reads "FY24."
- 3. Similarly, some graphs compare two years and others three. I'd vote to make them all two years. (I personally find the ODF tons/month graph, which covers three years, to be quite dense.)
- 4. An idea: Change over time is valuable info, but I also value efficient graphs. One way to capture this would be to use two series: (1) The current year and (2) a decaying average of recent years' data. This would allow a multi-year comparison using only two data series. (I recognize that this would require training for board members who don't know what decaying averages are.)
- 5. If you decided to standardize things, staff preparing said graphs would benefit from a short-and-sweet style guide. One page should capture it.

I responded to the group to recommend that the topic be addressed at the next Finance Committee meeting (June 11), and Chair Stabler agreed. There was no further discussion via email.

Attached are the current Board packet finance documents for reference.
