Read document. First, Sarah's previous email indicated that it could not be done this week due to holiday and would be the following week. Have conflict on Thursday afternoon and can't cancel. I changed this appointment for next week to this week. It also looks like this group requests documentation instead of me speaking, Will have to type up and send. As to conflicts, - no to Susan Gilfillan, yes to public, yes to have Shane there and no to attorney. You people have stretched this thing for weeks. Way more than any municipal government would do. I expect my day to speak and I might add, I see it's not the complete board. I will get what I need to say one way or another to the whole board and other government organisations. I am not a Jeff Sprout and others that have left gracefully. Let me know on date.

Didn't see anything on email. Try again. Will confirm when I read it.
