ENVIRONMENTAL DEPOT

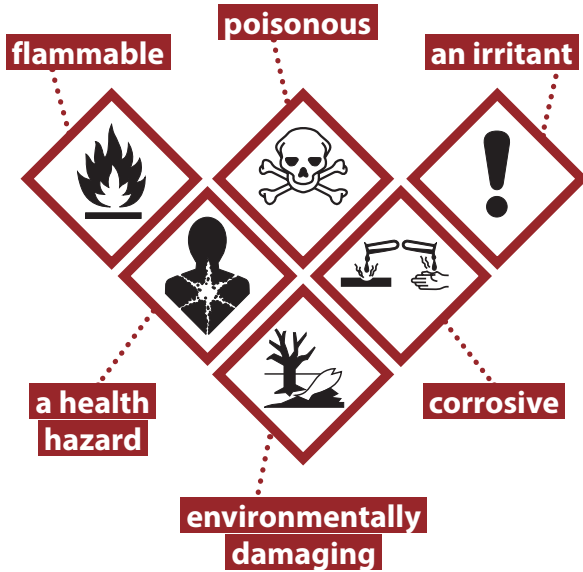

The safe place for your hazardous waste

Chittenden Solid Waste District

What is household hazardous waste?

Household hazardous waste (HHW) includes any product that is:

Hazardous products may not be labeled with a particular symbol. You can easily identify hazardous products by reading packaging labels. Look for key words such as **Warning!** **Danger! Poison!** and **Caution!**

Improper disposal of hazardous materials is illegal—and it poses a risk to human health and the environment.

The materials collected at the Environmental Depot are shipped to a licensed facility where they will be disposed of or recycled in an environmentally sound manner.

Reduce hazardous waste at home & work

What's the best way to avoid dealing with hazardous materials? Buy less of them.

Use non-toxic products where possible.

The Environmental Protection Agency's website—Safer Choice—helps consumers, businesses, and purchasers find products that perform and are safer for human health and the environment: www.epa.gov/saferchoice
